

GRANICUS PRODUCT CATALOG 2025

Complete Government Technology Solutions

COMPANY OVERVIEW

Granicus is the leading provider of government technology solutions, serving over 5,500 government organizations worldwide. Since 1999, we have been dedicated to helping public sector organizations communicate more effectively with their communities, manage operations efficiently, and deliver better citizen services.

Mission Statement: To connect governments and their communities through innovative technology solutions that promote transparency, engagement, and effective governance.

Core Values:

- Transparency in government operations
 - Citizen-centric service delivery
 - Innovation in public sector technology
 - Data security and privacy protection
 - Accessibility and inclusivity
-

PRODUCT PORTFOLIO

1. GOVDELIVERY COMMUNICATIONS CLOUD

Overview

GovDelivery Communications Cloud is our flagship digital communications platform that enables government organizations to reach their audiences through multiple channels including email, SMS, social media, voice messages, and push notifications.

Key Features

- **Multi-channel Messaging:** Email, SMS, voice, social media, and mobile push notifications
- **Advanced Segmentation:** Target specific audience groups with personalized content
- **Analytics and Reporting:** Comprehensive insights into message performance and engagement
- **API Integration:** Connect with existing systems and workflows
- **Template Library:** Professional templates designed for government communications
- **A/B Testing:** Optimize message performance with data-driven testing

Use Cases

- Emergency alerts and public safety notifications
- Community newsletters and announcements
- Public meeting notifications
- Service updates and maintenance alerts
- Policy changes and regulatory updates
- Election and voting information

- Priority support
- \$300 setup fee

Premium Plan - \$2,000/month

- Up to 100 websites
- Full remediation services

- Legal compliance guarantee
 - 24/7 support
 - \$500 setup fee
-

3. GRANICUS PEAK PERFORMANCE

Overview

Granicus Peak Performance optimizes government websites for speed, performance, and user experience through advanced monitoring, optimization tools, and content delivery networks.

Key Features

- **Performance Monitoring:** Real-time website speed and availability tracking
- **Optimization Tools:** Automated performance improvements
- **Content Delivery Network:** Global CDN for faster content delivery
- **A/B Testing:** Performance-focused website optimization
- **Mobile Optimization:** Enhanced mobile user experience
- **Security Monitoring:** Protection against threats and vulnerabilities

Performance Metrics

- Page load speed optimization
- Core Web Vitals improvement
- Mobile performance enhancement
- Uptime and availability monitoring
- User experience optimization

Pricing Tiers

Starter Plan - \$1,200/month

- Up to 3 websites
- Basic performance monitoring
- Monthly optimization reports
- Email support
- \$400 setup fee

Professional Plan - \$3,000/month

- Up to 10 websites
- Advanced optimization tools
- Real-time monitoring
- A/B testing capabilities

- Phone and email support
- \$800 setup fee

Enterprise Plan - \$7,500/month

- Up to 50 websites
 - Custom optimization services
 - Dedicated CDN resources
 - Priority support and SLA
 - 24/7 monitoring
 - \$1,500 setup fee
-

4. MEETING MANAGEMENT SUITE

Overview

Comprehensive meeting management solution for government organizations, providing tools for agenda creation, public engagement, live streaming, recording, and meeting documentation.

Key Features

- **Agenda Management:** Digital agenda creation and distribution
- **Live Streaming:** High-quality video streaming for public meetings
